

Mobile Medical Imaging  
& Specialty Trailers

# Manufacturing

Our innovative new designs and cost-effective engineering for building, upgrading or refurbishing medical trailers has made us a world-class approved vendor, serving some of the largest mobile medical diagnostic and treatment companies. We realize that each client has a unique set of requirements and our design team will offer all the best possible customizing options with regard to both the overall design and the equipment requirements. Plus, our work comes guaranteed with a One (1) Year Warranty.

## NEW TRAILER DESIGN AND BUILD

- Chassis
- Electrical systems
- "Green" power generation with better fuel efficiency
- "Green" heating and air conditioning systems
- Dual slide-out units to increase treatment room area
- All-aluminum lower compartments with lockable, well-sealed doors
- Long-lasting interior and exterior LED lighting
- Customized interior colors, materials and furnishings
- Exterior graphics from customer artwork
- Direct interface with equipment technicians

# Refurbishment

## REFURBISHING AND UPGRADING TRAILERS

- Replace all exterior skin and components including doors, generators, ECUs, lights and stairs
- Repair or replace all undercarriage components including shocks, airbags and tires
- Realign and repair single and double slide-out units
- Replace interior components including cabinets, walls, floors, ceilings and electrical components
- Fire detection and suppression systems
- Critical to function monitoring systems
